SURVEYS OF ENACTED CURRICULUM®

Survey Of Instructional Practices for ESL/ELD Teachers Grades K-12

This survey is designed for teachers who are responsible for the English language development (ELD) of English language learners (ELLs). Although this would include teachers who collaborate or team with content area teachers, it would not include ESL/ELD teachers who are responsible for both academic content and ESL/ELD.

Thank you for agreeing to participate in this survey of instructional practices and content. This survey is part of a collaborative effort to provide education researchers, policymakers, administrators, and most importantly, teachers like yourself with comparative information about instruction in districts participating in the SEC Collaborative or in associated initiatives from states and districts around the country. To learn more about the SEC and its use in other projects, please visit the project website: http://www.secsurvey.org.

Your participation in this survey is voluntary. If you choose to participate, your personal information will remain strictly confidential. Information that could be used to identify you or connect you to individual results will not be shared with staff in your school, district, or state. Individual respondents are never identified in any reports of results. The questionnaire poses no risk to you, and there is no penalty for refusal to participate. You may withdraw from the study simply by returning the questionnaire without completing it, without penalty or loss of services or benefits to which you would be otherwise entitled.

If you have any questions regarding your rights as a research participant, please contact the University of Wisconsin-Madison School of Education's Human Subjects Committee office at (608) 262-2463.

A joint project of the Council of Chief State School Officers and the Wisconsin Center for Education Research, with funding support from the U.S. Department of Education and participating states and districts. Limited Copyright.

Reporting Period: Most recent school year (current year, if reporting after March 1st)

Please read each question and its response choices carefully, and then mark your response by filling in an appropriate response circle. A pen or pencil may be used to complete the survey.

CLASS DESCRIPTION

Select the target class:

For the following questions we want you to think about a specific group of students (the target class). If you teach only one class of ELLs, this will be your target class. If you teach more than one group of ELLs, please select a specific ESL/ELD class to reflect on in responding to the questions that follow. This class will be referred to as "the target class". To select this target class, please select the one you consider would be more useful for you to reflect/report on.

INSTRUCTIONAL ACTIVITIES FOR ELLs

Listed below are questions about the types of activities <u>that you or ELLs in the target class</u> may engage in. Please estimate the relative amount of time a typical ELL in your class will spend engaged in *each activity* over the course of a <u>school year</u>. The activities are not mutually exclusive; across activities, **your answers will probably exceed 100%**. <u>Consider each activity on its own</u>, estimating the range that best indicates the relative amount of instructional time that a typical ELL in your target class engages in over the course of a school year for that category.

AMOUNT OF INSTRUCTIONAL TIME

0 - None1 - Little (*Less than 10%* of instructional time for the school year)

2 - Some (10-25% of instructional time for the school year)

3 - Moderate (26-50% of instructional time for the school year)

4 - **Considerable** (*More than 50% of* instructional time for the school year)

PROFESSIONAL DEVELOPMENT

In answering the following items, consider all the professional development activities related to second language acquisition or English language learning and development that you have participated in <u>since June</u> <u>1st of last vear</u>. Professional development refers to a variety of activities intended to enhance your professional knowledge and skills, including in-service training, teacher networks, course work, institutes, committee work, and mentoring. In-service training is professional development offered by your school or district to enhance your professional responsibilities and knowledge. Workshops are short-term learning opportunities that can be located in your school or elsewhere. Institutes are longer term professional learning opportunities, for example, of a week or longer in duration.

Since June 1st of last year, <u>how much time have you spent</u> engaged in professional development activities focused on English language learning?

0 = N/A	1 = 1-5 hrs.	2 = 6-15 hrs.	3 = 16-35 hrs.	4 = 36-6	0 hrs.	5 =	: 60+ h	nrs.
