Council of Chief State School Officers Wisconsin Center for Education Research

SURVEYS OF ENACTED CURRICULUM®

Survey Of Instructional Practices Teacher Survey Grades K-8 Science

Thank you for agreeing to participate in this survey of instructional practice and content. This survey is part of a collaborative effort to provide education researchers, policymakers, administrators, and most importantly, teachers like yourself with comparative information about instruction in districts participating in the SEC Collaborative or associated initiatives from states and districts around the country. To learn more about the surveys of enacted curriculum and their use in other projects, please visit the project website; http://www.secsurvey.org

Your participation in this survey is voluntary. If you choose to participate, your personal information will remain strictly confidential. Information that could be used to identify you or used to connect you to individual results will not be shared with staff in your school, district or state. Individual respondents are never identified in any reports of results. The questionnaire poses no risk to you and there is no penalty for refusal to participate. You may withdraw from the study simply by returning the questionnaire without completing it, without penalty or loss of services or benefits to which you would be otherwise entitled.

If you have any questions regarding your rights as a research participant, please contact the University of Wisconsin-Madison School of Education's Human Subjects Committee office at (608) 262-2463.

Please provide the following information: (Note: Your personal information will be kept confidential.) Name: Email address: (required for on-line access to individual results) District: School: Date: Providing your name and email address will allow you to gain access to your individual results along with results for your school and/or district.

Instructions for Selecting the Target Class --

Science Instruction -- For all questions about classroom practices please refer only to activities in the Science class that you teach. If you teach more than one Science class, select the first class that you teach each week. If you teach a split class (i.e. the class is split into more than one group for Science instruction) select only one group to describe as the target class.

Please read each question and the possible responses carefully, and then mark your response by filling in the appropriate circle in the response section. A pen or pencil may be used to complete the survey.

1 Which of these categories best describes the way Departmentalized Instruction classes at this school are organized? Taught by Subject Area Specialist (nondepartmental) (3) Self-contained 4 Team taught 2 If your school is departmentalized, or you are a (0) (1) (3) (4) 6 (7)subject area specialist, how many different (Number of courses taught) Science courses do you currently teach? 3 Which term best describes the target class, or Other (5) Earth Science course, you are teaching? Elem./Middle Sch Science 6 Biology ⑦ Chemistry ② General Science 8 Physics 3 Life Science Coordinated / 4 Physical Science Integrated

TARGET CLASS DESCRIPTION

4	Indicate the grade level of the majority of students in the target class.	(1) K	1	2	3	4	⑤ 5	⑥ 6	⑦ 7	8	9	⑩ 10	① 11	② 12
5	How many students are in the target class?		(1) (2)	11 1	or le: to 15 to 20	5				345	21 to 26 to 31 o	30	re	
6	What percentage of the students in the target class are female ? (Estimate to the nearest ten percent.)	Less	than	① 10	① 10	② 20	③ 30	4 0	⑤ 50	⑥ 60	⑦ 70	880	9 90+	%
7	What percentage of the students in the target class are not Caucasian? (Estimate to the nearest ten percent.)	Less	than	① 10	① 10	② 20	③ 30	4 0	⑤ 50	⑥ 60	⑦ 70	880	9 90+	%
8	During a typical week, approximately how many hours will the target class spend in Science instruction?			0	① (N	② Numb	③ per o	④ f ins	⑤ truct	⑥ iona	⑦ I hou	(8) rs)	9	
9	What is the average length of each class period for this targeted Science class?		① ②	30 t 41 t Var	to 40 to 50 ies c	licab) min) min due to ed in	utes utes o blo	ck s	chec	(S) (6)	61 to	90	minu minu) min	tes
10	How many weeks total will the target Science class/course meet for this school year?	Tota	l#w	eek	s =	1	① to 1	2	1:	① 3 to 2	24	;	② 25 to	36
11	Estimate the achievement level of the majority of students in the target class, based on national standards.		2	Ave	erage v Acl	e Act	nieve emer	mer	evels nt Le vels even	vels				
12	What percentage of students in the target class are Limited English Proficient (LEP)? (Estimate to the nearest ten percent.)	Less	than	① 10	① 10	② 20	③ 30	4 0	⑤ 50	⑥ 60	⑦ 70	880	9 90+	%
13	What is considered most in scheduling students into this class?			Lim Pro Tea	ited ficie iche	•	ish		nt	③④⑤	No o	ne f ano		more

HOMEWORK (work assigned to be done *outside* of class)

Answer the following questions with regard to your target class:

- 14 How often do you usually assign science homework to be done outside of class?
- Never (Skip to # 18)
- 3 3-4 times per week

- ① Less than once per week ② Once or twice per week
- 4 Every day

- 15 How many minutes does the typical student spend on a normal homework
- I do not assign homework
- ③ 31-60 minutes

- assignment done outside of class?
- ① Less than 15 minutes
- (4) 61-90 minutes

- 16 Does homework done outside of class
- (2) 15-30 minutes
- (5) More than 90 minutes

- count towards student grades?
- Never Usually does not
- ② Usually does 3 Always does

- 17 How often do you assign homework to be completed in a small group outside of class?
- O Never

(0)

- 3 3-4 times per week
- ① Less than once per week
- 4 Every day
- ② Once or twice per week

AMOUNT OF HOMEWORK TIME (for the school year)

- 0 None
- **1 Little** (10% or less of homework time for the school year)
- **2 Some** (11-25 % of homework time for the school year)
- **3 Moderate** (26-50% of homework time for the school year)
- **4 Considerable** (50% or more of homework time for the school year)

	at percentage of the time that students in the target class spend on ence homework done outside of class do you expect them to:	None	Little	Some	Moderate	Considerable
18	Read about science in books, magazines, or articles.	0	①	2	3	4
19	Answer questions from a science textbook or worksheet.	0	1	2	3	4
20	Solve science problems that require computation.	0	1	2	3	4
21	Revise and improve students' own work (for example, tests, homework assignments).	0	①	2	3	4
22	Collect data or information about science.	0	①	2	3	4
23	Work on an assignment, report, or project that takes longer than one week to complete.	0	1	2	3	4
24	Write about science in a report/paper.	0	①	2	3	4

INSTRUCTIONAL ACTIVITIES IN SCIENCE

Listed below are questions about the types of activities that students in the target class engage in during science instruction. For each activity, you are asked to estimate the relative amount of time a typical student will spend engaged in that activity over the course of a school year. The activities are not necessarily mutually exclusive; across activities, your answers will undoubtedly greatly exceed 100%. Consider each activity on its own, estimating the range that bests indicates the relative amount of science instructional time that a typical student spends over the course of a school year engaged in that activity.

AMOUNT OF INSTRUCTIONAL TIME (for the school year)

- 0 None
- **1 Little** (10% or less of instructional time for the school year)
- **2 Some** (11-25 % of instructional time for the school year)
- **3 Moderate** (26-50% of instructional time for the school year)
- **4 Considerable** (50% or more of instructional time for the school year)

	w much of the total science instructional time do lents in the target class:	None	Little	Some	Moderate	Considerable
25	Listen to the teacher explain something to the class as a whole about science.	0	①	2	3	4
26	Read about science in books, magazines, articles (not textbooks).	0	①	2	3	4
27	Work individually on science assignments.	0	1	2	3	4
28	Write about science in a report/paper on science topics.	0	①	2	3	4
29	Do a laboratory activity, investigation, or experiment.	0	①	2	3	4
30	Watch the teacher demonstrate a scientific phenomenon.	0	①	2	3	4
31	Collect data (other than laboratory activities).	0	1	2	3	4
32	Work <i>in pairs or small groups</i> (other than laboratory activities).	0	①	2	3	4
33	Do a science activity with the class outside the classroom or science laboratory (for example, field trips or research).	0	1	2	3	4
34	Use computers, calculators or other educational technology to learn science.	0	①	2	3	4
35	Maintain and reflect on a science portfolio of their own science work.	0	1	2	3	4
36	Take a quiz or test.	0	1	2	3	4

AMOUNT OF INSTRUCTIONAL TIME (in laboratory activities, investigations or experiments)

- 0 None
- **1 Little** (10% or less of instructional time in laboratory activities, investigations, or experiments)
- **2 Some** (11-25 % of instructional time in laboratory activities, investigations, or experiments)
- **3 Moderate** (26-50% of instructional time in laboratory activities, investigations, or experiments)
- **4 Considerable** (50% or more of instructional time in laboratory activities, investigations, or experiments)

labo	en students in the target class are engaged in oratory activities, investigations, or experiments as part cience instruction, how much time do they:	None	Little	Some	Moderate	Considerable
37	Make educated guesses, predictions, or hypotheses.	0	1	2	3	4
38	Follow step-by-step directions.	0	1	2	3	4
39	Use science equipment or measuring tools.	0	1	2	3	4
40	Collect data.	0	1	2	3	4
41	Change a variable in an experiment to test a hypothesis.	0	1	2	3	4
42	Organize and display information in tables or graphs.	0	1	2	3	4
43	Analyze and interpret science data.	0	1	2	3	4
44	Design their own investigation or experiment to solve a scientific question.	0	1	2	3	4
45	Make observations/classifications.	0	1	2	3	4

AMOUNT OF INSTRUCTIONAL TIME (in pairs or small groups)

- 0 None
- **1 Little** (10% or less of instructional time in pairs or small groups)
- **2 Some** (11-25 % of instructional time in pairs or small groups)
- **3 Moderate** (26-50% of instructional time in pairs or small groups)
- 4 Considerable (50% or more of instructional time in pairs or small groups)

gro	en students in the target class work in <i>pairs or small</i> ups (other than in the science laboratory), how much e do they:	None	Little	Some	Moderate	Considerable
46	Talk about ways to solve science problems, such as investigations.	0	①	2	3	4
47	Complete written assignments from the textbook or workbook.	0	1	2	3	4
48	Write up results or prepare a presentation from a laboratory activity, investigation, experiment or a research project.	0	①	2	3	4
49	Work on an assignment, report or project over an extended period of time.	0	①	2	3	4
50	Work on a writing project or entries for portfolios seeking peer comments to improve work.	0	①	2	3	4
51	Review assignments or prepare for a quiz or test.	0	1	2	3	4

AMOUNT OF INSTRUCTIONAL TIME (collecting science data or information)

- 0 None
- **1 Little** (10% or less of instructional time collecting science data or information)
- **2 Some** (11-25 % of instructional time collecting science data or information)
- **3 Moderate** (26-50% of instructional time collecting science data or information)
- 4 Considerable (50% or more of instructional time collecting science data or information)

<i>info</i> sou	en students in the target class collect science data or ormation from books, magazines, computers, or other rees (other than laboratory activities), how much time they:	None	Little	Some	Moderate	Considerable
52	Have class discussions about the data.	0	①	2	3	4
53	Organize and display the information in tables or graphs.	0	①	2	3	4
54	Make a prediction based on the data.	0	①	2	3	4
55	Analyze and interpret the information or data, orally or in writing.	0	①	2	3	4
56	Make a presentation to the class on the data, analysis, or interpretation.	0	①	2	3	4

AMOUNT OF INSTRUCTIONAL TIME (using calculators, computers or other ed. technology)

- 0 None
- **1 Little** (10% or less of instructional time using calculators, computers, or other ed. technology)
- **2 Some** (11-25 % of instructional time using calculators, computers, or other ed. technology)
- **3 Moderate** (26-50% of instructional time using calculators, computers, or other ed. technology)
- **4 Considerable** (50% or more of instructional time using calculators, computers, or other ed. technology)

tha edu	en students in the target class are engaged in activities t involve the use of <i>calculators</i> , <i>computers</i> , <i>or other cational technology</i> as part of science instruction, how ch time do they:	None	Little	Some	Moderate	Considerable
57	Learn facts.	0	①	2	3	4
58	Practice procedures.	0	①	2	3	4
59	Use sensors and probes (for example, CBL's).	0	1	2	3	4
60	Retrieve or exchange data or information (for example, using the Internet or partnering with another class).	0	①	2	3	4
61	Display and analyze data.	0	①	2	3	4
62	Solve problems using simulations.	0	1	2	3	4

ASSESSMENTS

For items 63-70, indicate how often you use each of the following when assessing students in the target science class.

			1 - 3		
63 Objective items (for example, multiple choice, true/false).	Never ①	1 - 4 times per year	times per month ②	1 - 3 times per week ③	4 - 5 times per week 4
64 Short answer (for example, fill-in-the-blank).	0	1	2	3	4
65 Extended response item for which student must explain or justify solution.	0	1	2	3	4
66 Performance tasks or events (for example, hands-on activities).	0	1	2	3	4
67 Individual or group demonstration, presentation.	0	1	2	3	4
68 Science projects.	0	1	2	3	4
69 Portfolios.	0	①	2	3	4
70 Systematic observation of students.	0	1	2	3	4

INSTRUCTIONAL INFLUENCES

For items 71-80, indicate the degree to which each of the following influences what you teach in the target science class.

		Not Applicable	Strong Negative Influence	Somewhat Negative Influence	Little or No Influence	Somewhat Positive Influence	Strong Positive Influence
71	Your state's curriculum framework or content standards.	0	①	2	3	4	(5)
72	Your district's curriculum framework or guidelines.	0	①	2	3	4	(\$)
73	Textbook / instructional materials.	0	①	2	3	4	(5)
74	State tests or results.	0	①	2	3	4	(5)
75	District tests or results.	0	①	2	3	4	(5)
76	National science education standards.	0	①	2	3	4	(5)
77	Your experience in pre-service preparation.	0	①	2	3	4	(5)
78	Students' special needs.	0	1	2	3	4	(5)
79	Parents/community.	0	①	2	3	4	(5)
80	Preparation of students for the next grade or level.	0	①	2	3	4	(5)

CLASSROOM INSTRUCTIONAL PREPARATION

	items 81-90, please indicate how well pared you are to: Teach science at your assigned level.	Not Well Prepared	Somewhat Prepared	Well Prepared ②	Very Well Prepared ③
82	Integrate science with other subjects.	0	①	2	3
83	Provide science instruction that meets science content standards (district, state, or national).	0	①	2	3
84	Use a variety of assessment strategies (including objective and open-ended formats).	0	①	2	3
85	Manage a class of students who are using hands-on or laboratory activities.	0	①	2	3
86	Take into account students' prior conceptions about natural phenomena when planning.	0	①	2	3
87	Teach students with disabilities.	0	①	2	3
88	Teach classes with students with diverse abilities.	0	①	2	3
89	Teach science to students from a variety of cultural backgrounds.	0	①	2	3
90	Teach science to students who have Limited English Proficiency.	0	①	2	3
TE	ACHER OPINIONS				

	se indicate your opinion about each of the ments below:	Strongly Disagree	Disagree	Neutral / Undecided	Agree	Strongly Agree	
91	Laboratory-based science classes are more effective than non-laboratory classes.	0	①	2	3	4	
92	It is important for students to learn basic scientific terms and formulas before learning underlying concepts and principles.	0	①	2	3	4	
93	I am supported by colleagues to try out new ideas in teaching science.	0	①	2	3	4	
94	I am required to follow rules at this school that conflict with my best professional judgment about teaching and learning science.	0	①	2	3	4	
95	Science teachers in this school regularly observe each other teaching classes.	0	①	2	3	4	
96	Science teachers in this school trust each other.	0	①	2	3	4	
97	It's OK in this school to discuss feelings, worries, and frustrations with other science teachers.	0	①	2	3	4	
98	Science teachers respect other teachers who take the lead in school improvement efforts.	0	①	2	3	4	
99	It's OK in this school to discuss feelings, worries, and frustrations with the principal.	0	①	2	3	4	
100	The principal takes personal interest in the professional development of the teachers.	0	①	2	3	4	

PROFESSIONAL DEVELOPMENT ACTIVITIES IN SCIENCE EDUCATION

In answering the following items, consider all the professional development activities related to Science content or Science education that you have participated in between <code>June 1st of last year and May 31st of this year</code>. Professional development refers to a variety of activities intended to enhance your professional knowledge and skills, including in-service training, teacher networks, course work, institutes, committee work, and mentoring. Inservice training is professional development offered by your school or district to enhance your professional responsibilities and knowledge. Workshops are short term learning opportunities that can be located in your school or elsewhere. Institutes are longer term professional learning opportunities, for example, of a week or longer in duration.

		How Often?						Но	w m	any	ny hours?			
		0	Nev	er	3	3-4	times	s	0	N/A			3	16-35
		1	Onc	е	4	5-10) time	es	1	1-6	hrs.		4	36-60
		2	Twi	се	(5)	>10	time	s	2	7-1	5 hrs		(5)	61+ hrs.
101	For the time period referenced above, how often, and for how many total hours, have you participated in workshops or in-service training related to Science or Science education?		0	1	2	3	4	(5)	0	1	2	3	4	(\$)
102	For the time period referenced above, how often, and for how many total hours, have you participated in summer institutes related to Science or Science education?		0	1	2	3	4	(5)	0	①	2	3	4	(S)
103	For the time period referenced above, how often have you attended college courses related to Science or Science education and about how many hours did you spend in class?		0	1	2	3	4	(5)	0	①	2	3	4	(\$)

Between June 1st of last year and May 31st of this year, how frequently have you engaged in each of the following activities related specifically to the teaching and learning of Science?

			Once or	Once or	Once or twice a	Once or twice a	Almost
		Never		twice a term	month	week	daily
104	Attended conferences related to science or science education.	0	①	2	3	4	(5)
105	Participated in teacher study group.	0	①	2	3	4	(5)
106	Participated in a teacher network, or collaborative of teachers supporting professional development.	0	①	2	3	4	(5)
107	Acted as a coach or mentor to other teachers or staff in your school.	0	1	2	3	4	(5)
108	Received coaching or mentoring.	0	1	2	3	4	(5)
109	Participated in a committee or task force focused on curriculum and instruction.	0	①	2	3	4	(5)
110	Engaged in informal self-directed learning (for example, discussion with colleague about science or science education topics, read a journal article on sceince or science education, used the internet to enrich knowledge and skills).	0	①	2	3	4	\$

Thinking again about all of your professional development activities in Science or Science education between June 1st of last year and May 31st of this year, how often have you:

	Never	Rarely	Some times	Often
111 Observed demonstrations of teaching techniques.	0	1	2	3
112 Led group discussions.	0	1	2	3
Developed curricula or lesson plans, which other participants or the activity leader reviewed.	0	①	2	3
114 Reviewed student work or scored assessments.	0	1	2	3
115 Developed assessments or tasks.	0	①	2	3
116 Practiced what you learned and received feedback.	0	①	2	3
117 Received coaching or mentoring in the classroom.	0	1	2	3
118 Gave a lecture or presentation to colleagues.	0	1	2	3

Thinking about all of your professional development activities between June 1st of last year and May 31st of this year, indicate how often they have been:

440 D : 14	N/A	Never	Rarely	Some times	Often
119 Designed to support the school-wide improvement plan adopted by your school.	9	0	①	2	3
120 Consistent with your science department or grade level plan to improve teaching.	9	0	①	2	3
121 Consistent with your own goals for your professional development.	9	0	①	2	3
122 Based explicitly on what you had learned in earlier professional development activities.	9	0	①	2	3
123 Followed up with related activities that built upon what you learned as part of the activity.	9	0	①	2	3

Between June 1st of last year and May 31st of this year, have you participated in professional development activities in Science or Science education in the following ways?

		No	Yes
124	I participated in professional development activities with most or all of the teachers from my school.	0	①
125	I participated in professional development activities with most or all of the teachers from my department or grade level.	0	1
126	I participated in professional development activities <i>not</i> attended by other staff members from my school.	0	1
127	I discussed what I learned with other teachers in my school or department who did <i>not</i> attend the activity.	0	①

How much emphasis did your professional development activities in Science or Science education place on the following topics?

	None	Slight	Moderate	Great
128 State science content standards (for example, what they are and how they are used).	0	①	2	3
129 Alignment of science instruction to curriculum.	0	①	2	3
130 Instructional approaches (for example, use of manipulatives).	0	①	2	3
131 In-depth study of science or specific concepts within science (for example, earth science).	0	①	2	3
132 Study of how children learn particular topics in science.	0	①	2	3
133 Individual differences in student learning.	0	①	2	3
134 Meeting the learning needs of special populations of students (for example, second language learners; students with disabilities).	0	①	2	3
135 Classroom science assessment (for example, diagnostic approaches, textbook-developed tests, teacher-developed tests).	0	①	2	3
136 State or district science assessment (for example, preparing for assessments, understanding assessments, or interpreting assessments).	0	①	2	3
137 Interpretation of assessment data for use in science instruction.	0	①	2	3
138 Technology to support student learning in science.	0	①	2	3

TEACHER CHARACTERISTICS

139	Please indicate your gender.		F	emale ①	Male ②	•		
140	Please indicate your ethnicity/race.	① ②	American Asian	Indian or A	Alaska Nati	ive		
	Indicate all that apply	3 4 5	Black or A Hispanic o	or Latino		ic Islander		
		6	White					
		Less than 1 year	1 - 2 years	3 - 5 years	6 - 8 years	9 - 11 years	12 - 15 years	More than 15 years
141	How many years have you taught science prior to this year?	0	①	2	3	4	(5)	6
142	How long have you been assigned to teach at your current school?	0	1	2	3	4	(5)	6
		Does not apply	BA or BS	MA or MS	Multiple MA or MS	Ph.D. or Ed.D.	Other

SURVEYS OF ENACTED CURRICULUM ®

Survey Of Instructional Content Teacher Survey Grades K-8 Science

The following pages request information regarding topic coverage and your expectations for students in the target science class for the current school year. The content matrix that follows contains lists of discrete topics associated with science instruction. The categories and the level of specificity are intended to gather information about content across a wide variety of programs. It is not intended to reflect any recommended or prescribed content for the grade level and may or may not be reflective of your local curriculum.

Please read the instructions on the next two pages carefully before proceeding.

Step 1: Indicate topics not covered in this class

Begin by reviewing the entire list of topics identified in the topics column of each table, noting how topics are grouped. After reviewing each topic within a given grouping, if none of the topics listed within that group receive any instructional coverage, circle the "<None>" in the "Time on Topic" column for that group. For any individual topic which is not covered in this science class, fill in the circled "zero" in the "Time on Topic" column. (Not necessary for those groups with "<None>" circled.) Any topics or topic group so identified will not require further response. [Note, for example, that the class described in the example below did not cover any topics under "Kinetics" and so "<None>" is circled.]

Step 2: Indicate the amount of time spent on each topic covered in this class

Examine the list of topics a second time. This time note the amount of coverage devoted to each topic by filling in the appropriately numbered circle in the "Time on Topic" column based upon the following codes:

0 = None, not covered

1 = Slight Coverage (less than one class/lesson)

2 = Moderate Coverage (one to five classes/lessons)

3 = Sustained Coverage (more than five classes/lessons)

Step 1			Step 2

Step 3: Indicate relative emphasis of each student expectation for every topic taught

The final step in completing this section of the survey concerns your expectations for what students should know and be able to do. For each topic area, please provide information about the relative amount of instructional time spent on work designed to help students reach each of the listed expectations by filling in the appropriately numbered circle using the response codes listed below. (Note: To the left of each content sheet you will find a list of descriptors for each of the five expectations for students.)

0 = No emphasis

 (Not an expectation for this topic)

 1 = Slight emphasis

 (Accounts for less than 25% of the time spent on this topic)

 2 = Moderate emphasis

 (Accounts for 25% to 33% of the time spent on this topic)

 3 = Sustained emphasis

 (Accounts for more than 33% of the time spent on this topic)

Note: A code of "3" should typically be given for only one, and no more than two expectation categories within any given topic. No expectation codes should be filled-in for those topics for which no coverage is provided (i.e., circled "0" or "<None>").

04 --- 2

Expectations for Students in Science

Memorize Facts/ Definitions/ Formulas

Recite basic science facts

Recall science terms and definitions

Recall scientific formula

Conduct Investigations/ Perform Procedures

Make observations

Collect and record data

Use appropriate tools

Make measurements, do computations

Execute procedures

Generate questions, make predictions

Plan and design experiments

Test effects of different variables

Communicate Understanding of Science Concepts

Explain concepts

Observe and explain teacher demonstrations

Explain procedures and methods of science

and inquiry

Organize and display data in tables or charts

Analyze Information

Classify and compare data

Analyze data, recognize patterns

Infer from data

Draw conclusions

Apply Concepts/Make Connections

Use and integrate science concepts

Apply and adapt science information to

real-world situations

Build or revise theory

Apply science ideas outside the context of

science

Response Codes Time on Topic

0 = None

(Not Covered)

1 = Slight coverage

(Less than one class/lesson)

2 = Moderate coverage

(One to five classes/lessons)

3 = Sustained coverage

(More than five classes/lessons)

Response Codes Expectations for Students

0 = No emphasis

(Not a performance goal for this topic)

1 = Slight emphasis

(Less than 25% of time on this topic)

2 = Moderate emphasis

(25% to 33% of time on this topic)

3 = Sustained emphasis

(More than 33% of time on this topic)
